## HISTORIA

## ANÁLISIS ARTÍSTICO

This sketch depicts the architect Ventura Rodríguez showing a plan to the infante. The two men are in an outdoor setting and off to one side we can see a tombstone, completing the composition. The work is loosely painted but with fine brushstrokes.

Sambricio attributes this work, a preliminary study for a larger format painting, to Francisco Bayeu, whilst Gassier-Wilson pointed out the similarity of the composition to that of the *Portrait of Floridablanca* in the Bank of Spain.
